

TECHNICAL DATA SHEET

Grade: ACRYLON M400

Property

- Superior Impact Strength at room temperature and low temperatures.
- Lower dosage level, typically 4.75- 5.00 phr.
- High filler level acceptance.
- Improved processability higher throughput.

Bulk density 0.39 g/cc

Volatiles 1 Wt%

Impact strength

Charpy 23 deg C >30 kg cm/cm

 0 deg C >15 kg cm/cm

The above results are typical values and do not constitute a specification.
